

Freedom and Justice Party Condemns Bombing Outside Italian Consulate in Cairo

The Freedom and Justice Party condemns the targeting of the Italian Consulate in Cairo with a car-bomb today. We reaffirm that such traitorous terrorist acts will not hinder us from completing our peaceful march for freedom from the murderer Al-Sisi's illegitimate regime.

The military coup's apparatuses and authorities are doing their worst in vicious attempts to drag the country into a cycle of violence to justify their brutal crimes, violations and assassinations and to create the 'right scene' for the junta's evil objectives, like accelerating the execution of political opponents. These brutal atrocities and treasonous attempts have become only too obvious for all to miss. They will not succeed in breaking the Revolution or changing its peaceful path to overthrowing the illegitimate military junta and defeating the ruinous coup.

All national, regional and international powers should recognize the risks and dangers of this criminal regime whose brutal fascism has exceeded all limits, and which is endeavoring to burn the homeland in order to ensure its own survival.

We ask God to save our country from all evil

We ask God to save Egypt from the traitor Al-Sisi and his gang.
