

MB MP: Arab Dictatorships are the Real Nakba

Ahmad Abu Baraka, Muslim Brotherhood MP, said in his seminar Friday on the Palestinian Nakba anniversary that dictatorship is the greatest Nakba that has hit the region over the last couple of decades.

He held despotic regimes in the Arab world responsible for the deterioration in their countries' circumstances and for the continuation of occupation in Palestine until this moment.

"Palestine will not be liberated unless the entire region is liberated from political despotism," he said.
