

Morsi: 9/11 a global calamity, not only for U.S.

Immediately after 9/11 attacks happened six years ago, the Muslim Brotherhood (MB) group condemned them, seeing them as totally divorced from any religion or creed, actions which are totally rejected by Islam.

However, the oppressive aftermaths and repercussions committed throughout the past six years by the US administration deserve another condemnation.

Dr. Mohamed Morsi, a top MB leader and a member of the MB Executive Office, said on the occasion of marking the sixth anniversary of 9/11 attacks: "From the very beginning, the Muslim Brotherhood group has frankly denounced these attacks. We do not approve carrying out attacks against safe peoples or demolishing houses.

"These attacks were a wrong act which we denounce regardless of its doer", Morsi says, clarifying the MB attitude towards 9/11 attacks.

Mohamed Morsi sees that the US administration is currently the world's terrorism leader that intimidates civilians with through invasions, and using unconventional weapons like in Iraq in Baghdad airport battle. "The US administration has never presented any evidences on the identity of those who committed that incident" he says.

"The Muslim Brotherhood and others demanded a transparent trial with clear evidence and to have court rulings. We confirm that this isn't a defense to those who committed these actions but we only seek the truth", Morsi adds.

Morsi stresses that the United States hasn't given a clear definition for the concept of terrorism. The US administration even accused resisters and those defending their land in Palestine of being terrorists, an attitude which the Muslim Brotherhood rejects.

Reiterating that the MB fully rejects the 9/11 attacks, Mohamed Morsi said on the other hand that the MB rejects also the exercises committed by the US administration against people all over the world and that this very

administration gets in line with Israeli occupation forces in aggression, injustice, encroaching lands and raping women.

Morsi pointed out also that there are several polls in Europe revealing that Israel and its supporters are more dangerous to global security than any other kind of terrorism.

Mohamed Morsi sees that the US administration is currently fighting all Islamic peoples and countries due to the US administration claims that the doers of the 11 September attacks Muslims, without proving such a thing until now.

It seizes such incidents as a pretext to achieve its targets, and control wealths of Islamic states, he adds.

The US administration's post-9/11 attitude of invading Islamic states, is fully similar attacking Japan after Pearl Harbr in the Second World War, he says.

Mohamed Morsi concludes, saying, "The Muslim Brotherhood has a moderate attitude. We reject and don't commit violence. We condemn those who carried out the 9/11 attacks regardless of their belief or religion. We also condemn what the US did before 9/11, after 9/11 and its current terrorism against mankind.
