

Muslim Brotherhood condemns the attack east of the Suez Canal, renewing its rejection of all forms of terrorism

We condemn and denounce the terrorist attack that targeted the water pumping station east of the Suez Canal, where ten soldiers and an officer have been killed while others were injured.

While the Brotherhood renews its rejection of all forms of terrorism, we hold the regime the full responsibility of the deterioration of the conditions of our security forces, where the regime continues to distract our armed forces from its role in protecting our lands from any aggression, while our brother soldiers and protectors pay the price of this deterioration with their lives.

We pray Allah to have mercy on those who have passed as witnesses that the love of our homeland is more precious than life itself, and our condolences to the families of those victims and to all Egyptians, while our prayers remain for Egypt and our people for welfare and guidance.

Sohayeb Abdel-Maksoud

Media Spokesperson of the Muslim Brotherhood
