

Muslim Brotherhood calls upon Arab leaders to stop normalization with the Zionist Occupation

The Israeli occupation continues its repressive practices in Quds and AlAqsa mousque and its surrounding and especially Sheikh Jarrah neighborhood, and settlers keep gathering and attacking AlAqsa AlSahrief.

What happens today in terms of confiscation of land and the attempts to remove its people from it, is to rid it from its identity.

—The Muslim Brotherhood condemns such enforcements and tyranny towards the lands and the sanctities, and we re announce Palestine and an Arab land, and the occupation shall no doubt transient, and any attack shall be fought against by the sons of this ummah generally and those of Palestine in particular, whilst the silence of the Arab and international regimes is failing the cause, and history shall never forget it.

We call upon the world and the free people to announce their stance and the Arab leaders to realize this distinct moment and stand for the ummah's sanctities and cut ties and normalization with the enemy; to exonerate themselves before their people and their ummah.

We believe that this occupation shall not be deterred except with a new "Saif Al-Quds" as they may have forgotten the past one, they know nothing but this language, and as the world does not take action for those who are rightful of the land; they shall move as the occupiers ache, which shall be soon.

The Muslim Brotherhood
