

MB Holds Regime Responsible for Health of Dr Badie and All Detainees

The Muslim Brotherhood (MB) holds the Egyptian regime responsible for the crimes it is committing against political detainees behind bars.

It also holds the authorities fully responsible for the health of MB General Guide Dr Mohamed Badie, especially after he went on a full hunger strike, due to the ill-treatment he is exposed to inside his prison.

The MB also calls on local and international human rights organizations to undertake their duty and save the lives of detainees that are being exposed to slow death, and to form a fact-finding committee to investigate the conditions at Badr Prison Complex, amid circulated reports about flagrant violations committed against prisoners, that have even claimed the lives of some.
