

The Chief of the Political Department the Muslim Brotherhood Calls on Arab Governments to Work to Stop the Genocide

Bombing the Baptist Hospital in Gaza and killing the injured and wounded is a crime against humanity. 500 martyrs and more than 600 were injured in this massacre, in addition to the thousands of martyrs and injured since the barbaric Zionist bombing, which is a test for Arab governments and armies.

The patience of people has an end. We are facing a catastrophe in which silence is not permissible. Arab and Islamic countries must take strong and immediate steps to stop the Zionist orgy.

Dr. Helmy El-Gazzar

Chief of the Political Department of the Muslim Brotherhood
