

We Appreciate Turkey's Decision to Join South Africa's Case Against the Genocide in Gaza

The Muslim Brotherhood (MB) appreciates the decision made by Turkish President Recep Tayyip Erdogan to officially join South Africa's genocide case against Israel before the International Court of Justice.

This Turkish decision came within the framework of persecuting the Israeli entity and its leaders, on charges of committing genocide and crimes against humanity against the people of Palestine, in the ongoing war in Gaza.

The MB believes that this step will significantly contribute to supporting the Palestinian cause, given that it has come from a Muslim country that enjoys great regional and international weight, and a major country among the Islamic world countries, to which the people's eyes look for supporting their causes and all the causes of the oppressed, particularly the Palestinian cause.

This decision will also enhance work to achieve justice and practise pressure to stop the aggression and hold its perpetrators accountable.

May Allah protect Turkey's leadership, government, and people, so that it will always remain the hope of the oppressed, and an asset and pride for the Muslim nation.

Allah Is the Greatest; and May Praise Be to Allah

MB Official Spokesperson

Osama Suleiman
