

MB– We condemn facilitation of delivery of explosives for the ‘Israeli entity’ via Alexandria Port

The Muslim Brotherhood (MB) condemns the Egyptian authorities' decision allowing a suspicious German-flagged ship carrying explosives to the Israeli enemy to dock in the port of Alexandria, at a time when other countries refused to receive it in their ports, such as: Malta, Angola, and Namibia. The ship had been flying the Portuguese flag before changing it to the German flag.

The MB calls on the Egyptian government to provide clarification in this regard, as what has happened in this respect is a form of facilitation of military support for the Zionist entity in its (genocidal) war on the Gaza Strip, which even amounts to participation in the crime of genocide for which the Zionist entity along with its leaders are being tried (at the International Court of Justice).

The Brotherhood also demands the Egyptian authorities to stop allowing such Israeli ships that regularly visit Egyptian ports to dock in our ports, considering the establishment of normal relations with the Israeli enemy in times of war is a betrayal of Egypt and a betrayal of the Palestinian cause; and that such act does not express the conscience of the Egyptian people who reject the occupation and its criminal practices.
