

MB condemns US aggression against Yemen, viewing it as an extension of support for Zionist crimes

The Muslim Brotherhood (MB) condemns the US–British aggression against brotherly Yemen; as US forces have carried out over 40 airstrikes against Yemen, leaving a large number of dead and wounded, most of whom were children and women, according to the Yemeni Ministry of Health. The attacks also destroyed infrastructure in several cities.

The Brotherhood believes this aggression is part of the authentic US role in supporting the Israeli entity.

Therefore, the MB calls upon the UN Security Council, as it is responsible for keeping international peace and security, to immediately intervene to stop this aggression and prevent deterioration of the situation, which would add a new tragedy to the Palestinian tragedy.

While the Brotherhood declares its condemnation of the aggression against Yemen and its solidarity with the brotherly Yemeni people, it calls upon Arab leaders to take positive political positions to stop the bloodshed and not to forget the (positive) Yemeni role alongside the Palestinian cause, the cause of the entire nation.

The Muslim Brotherhood also calls upon the Arab peoples to express their rage against the American arrogance.

May Allah Almighty protect Yemen and its people; and may He protect our nation from the evil of stalkers who lie in wait for it.

MB Official Spokesperson

Osama Suleiman
