The Attack on Sumud Flotilla Is Piracy and Ongoing Terrorism

The Muslim Brotherhood (MB) condemns the Israeli occupation forces' interception of the Sumud Flotilla vessels heading to Gaza, in an ongoing attempt to tighten the unjust siege on over two million people living under bombardment, starvation, and deprivation of the most basic necessities of life.

The MB emphasizes that this peaceful convoy, the largest international humanitarian demonstration, sends a message to the entire world against an enemy that is practicing genocide in its most heinous forms and insisting on its policies of piracy and organized terrorism against any initiative aimed at breaking the blockade imposed on Gaza.

The Brotherhood also stresses that the Sumud Flotilla is a real test for all those who claim to advocate peace. In this regard, the international community must confront Zionist arrogance, take urgent action to protect those in solidarity with the Gazan people, enforce humanitarian access to the Gaza Strip, and lift the blockade therein completely and immediately.
