MB Calls for Sparing Strength to Confront the Common Enemy

The Muslim Brotherhood (MB) highly values the joint meeting held in Tehran between the states party to the Makkah Joint Defense Agreement and the Islamic Republic of Iran.

The MB stresses that this meeting is a step in the right direction toward boosting the autonomy of regional decision making, which enables the states and peoples of the region to determine their own destinies, rather than falling prey to ill-fated foreign agendas.

We reiterate our call to all segments of the nation to adopt serious and responsible dialogue as a means to resolve differences and address existing problems, to avoid internal conflicts, and to spare strength for confronting the common enemy – an enemy that makes no secret of its expansionist agenda.

MB Media Spokesperson
